

Vidflex Faith™ Offer

In response to COVID-19, Vidflex Faith™ is offering churches

3 months free

of video hosting and streaming services that integrates online giving through a partnership with The Christian and Missionary Alliance (C&MA).

By waiving our standard set-up and licensing fees, it's our hope that churches are able to continue weekly services while promoting the health and safety of their congregation. Since community events and public gatherings are currently inadvisable or simply not feasible, as per government health recommendations, this approach to helping churches build and maintain church community online is our way of supporting you during this uncertain time.

As part of our Vidflex Faith™ commitment, our team will set up your video site for you and provide training so you can focus your team's resources on communicating to your congregation online in the current environment.

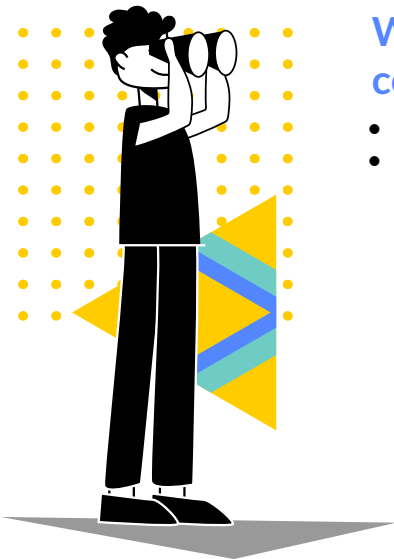

Our collective value is to preserve the health and well-being of our church community members by providing a digital means of streaming services in place of in-person assembly. In addition to giving churches the ability to gather in a virtual setting for worship and teaching—especially during these unsettling times—we believe that having the means to allow members to give, should remain unaffected despite social distancing.

With the Vidflex Faith™ platform, your church will have the opportunity to:

- Record and stream live services for your community to watch online
- Reach congregation members despite complications arising from travel, illness or mobility issues
- Build a video library and share videos with your community
- Provide an “online giving” button next to your live service as a simple way for people to tithe; this helps ensure that you do not lose financial support during these times

Ex: Please see tv.cochranealliance.com and click on a live service, then click on the “online giving” button

We have also secured optional partnerships that can complement your Vidflex Faith™ platform, including:

- Video equipment package options (for churches who have limited hardware capabilities at present)
- Discounted online payment service integration to provide continuity and ease of giving

Please visit our [website](http://www.vidflex.com) to learn more about how the Vidflex Faith™ platform is designed to serve your church's mission.

This offer is for a simple platform and will be provided on a first come, first serve, basis. Your team will be trained to enhance the platform as much as you like. The price of our Vidflex Faith™ Starter platform is \$150/month, with no obligation to purchase after the free period. If you do decide to continue with the service, our team will help you build it into a full Church Media Centre.

We wish you, your families and Church community the very best of health during and beyond the COVID-19 pandemic.
